Iot Based Safety Gadget For Child Safety Monitoring &Notification
TEAM ID: PNT2022TMID14617

1. Prerequisties
- 》IBM Cloud Services
- 》Software

2.Project Objectives
- 》Abstract
- 》Brainstorming

3.Create And Configure IBM Cloud Services
- 》Create IBM Watson Iot Platform And Device
- 》Create Node- Red Service
- 》Create A Database In Cloudant DB

4.Develop The Python Script
- 》Develop A Python Script

   Develop A Web Application Using Node-RED Service.

5.Ideation Phase
- 》Literature Survey On The Selected Project & Information Gathering
- 》Prepare Empathy Map
- 》Ideation

6.Project Design Phase -1
- 》Proposed Solution
- 》Prepare Solution Fit
   - 》 Solution Architecture

7.Project Design Phase -2

    -》Customer journey

    -》 Functional Requirement

    -》Data Flow Diagram

    -》Technology Architecture

8.Project planning Phase

-》 Prepare Milestones & Activity List

-》 Sprint Delivery Plan

9. **Project Development Phase**

-》Project Development-Delivery Of Sprint-1

-》Project Development-Delivery Of Sprint-2

-》Project Development-Delivery Of Sprint-3

-》Project Development-Delivery Of Sprint-4
